

HIV & AFRICA

**A Mini-Seminar on the Virus that Has Changed a Continent
& The World**

**Saturday, March 15
9 AM -12 Noon
Landmark Church of Christ
Free**

Guest Speaker:

Dr. Bruce Smith, M.D., M.P.H.

Medical Officer for Maternal, Child and Adolescent Health
San Bernardino County Department of Public Health, CA

Dr. Smith is a Public Health physician, board certified in Family Practice and trained in Preventive Medicine, with extensive international health experience. He served for eight years as a medical missionary in Latin America training village health promoters to deliver primary and preventive care. He has worked in the HIV clinic of the San Bernardino County Dept. of Public Health for 15 years. For three years he was worked investigating the needs of African churches around HIV, and equipping and encouraging them to better deal with HIV.

Part 1: HIV 101: What is it?

Part 2: HIV in Africa, Its Prevalence, and Effects on Churches

Part 3: What Should Be Done?

An excellent educational experience for missionaries, missions committees, & concerned Christians
